PATENT ASSIGNMENT AGREEMENT

This Assignment Agreement (the "Agreement") is made this 22nd day of May, 2002, by and between cyberPIXIE, Inc., a Delaware corporation, having a principal place of business at 68 East Walker Place, Chicago, Illinois 60661 ("Assignor"), and PCTEL, Inc., a Delaware corporation having a principal place of business 1331 California Circle, Milpitas, California 95035 ("Assignee").

WHEREAS Assignor is the owner of U.S. patent applications entitled (i) Computer Hardware and Software Installation Apparatus and Method, which application was filed on August 31, 2001 and given Serial Number 09/945,547; and (ii) System and Method of Providing Computer Networking, which application was filed on October 22, 2001 and given Serial Number 09/986,484 (together, the "Applications"); and

WHEREAS Assignee is desirous of acquiring all title, right, interest, benefits and privileges to the Applications and all inventive subject matter described in the Applications which may be claimed in any patent applications or issued patents which claim priority to or are otherwise related to the Applications anywhere in the world;

NOW, THEREFORE, for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree and act as follows:

1. Assignment. Assignor hereby, irrevocably and without reservation:

1.1 Covenants that Assignor is the sole owner and assignee and holder of record title to the Applications and any patents that issue thereon and that it has full power to make the present assignment;

1.2 Assigns, sells, transfers and conveys to Assignee all right, title and interest in and to the Applications, any and all inventive subject matter described or claimed in the Applications, and any and all other patent applications or issued patents claiming priority therefrom, or otherwise related to such Applications, anywhere in the world, including all nonprovisional, divisional, renewal, substitute, continuation and convention applications, and any and all letters patent, reissues, reexaminations, and extensions of letters patent granted thereon, and every priority right that is or may be predicated upon or arise from the Applications and patents based thereon;

1.3 Binds its successors and assigns, as well as itself, to do, upon Assignee's request and at Assignee's expense, but without additional consideration to Assignor or them, all acts reasonably serving to assure that the Applications and any patents issuing thereon shall be held and enjoyed by Assignee as fully and entirely as the same could have been held and enjoyed by Assignor, its successors and assigns if this Agreement had not been made; and particularly to execute and deliver to Assignee all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be reasonably requested by Assignee; to communicate to Assignee all facts known to Assignor relating to the Applications; and to furnish Assignee with any and all documents, photographs, models, samples and other physical exhibits in Assignor's control or in the control of its successors or

assigns which may be useful for establishing the facts of all conceptions, disclosures, and reduction to practice of the subject matter of the Applications;

1.4 Warrants unto the Assignee and further agrees that Assignor will, without demanding any further consideration therefor, at the request and at the expense of the Assignee, do all lawful and just acts including the execution and acknowledgment of instruments, that may be or become necessary for sustaining, obtaining continuations thereof, or reissuing said United States Patent and foreign counterparts and for maintaining and perfecting the Assignee's right to said Patent, particularly in cases of interference and litigation; and

1.5 Hereby authorizes the Commissioner of Patents to issue any and all Patents which may be granted upon any of the Applications herein referenced to Assignee, as the assignee to the entire interest therein.

2. Binding Agreement. The terms and covenants of this Agreement shall inure to the benefit of Assignee and its successors and assigns, and shall be binding upon Assignor and its successors and assigns.

3. Miscellaneous. This Agreement shall be governed by the laws of the State of Delaware, without reference to conflict of laws principles. Any failure to enforce any provision of the Agreement shall not constitute a waiver thereof or of any other provision. This Agreement may not be amended, nor any obligation waived, except by a writing signed by both parties. If any provision of this Agreement is held by a court of competent jurisdiction to be unenforceable, then such provision shall be eliminated or limited to the extent required by applicable law and this Agreement, as so modified, shall remain enforceable in accordance with its terms.

In testimony of which this Patent Assignment Agreement has been executed on the date indicated below.
